DEAR PROSPECTIVE STUDENTS,

Prof. Dr. Ali Zeynal Abidin TAK

Dean

Department of Neurology

Graduated from

Istanbul University Cerrahpaşa Faculty of Medicine

It is my great pleasure to invite you to join the academic community at Adıyaman University Faculty of Medicine.

Medicine is one of humanity's oldest and most respected professions—a vocation where science meets conscience, reason meets compassion, and technology serves humanity.

We are committed to providing future physicians who answer this calling with contemporary medical education of the highest standard.

Dear Prospective Students,

At Adıyaman University Faculty of Medicine, our distinguished faculty, integrated curriculum and extensive clinical training at affiliated Adıyaman Training and Research Hospital prepare students for medical practice in Türkiye and an increasingly interconnected world.

This year marks the beginning of a new era. With a 17,000 m² Morphology and Lecture Hall Building constructed in cooperation with TOKİ, a 12,000 m² Dentistry Teaching and Research Hospital and 71 staff housing units, our campus is evolving into one of the region's most modern environments for medical education.

Since taking office, we have been guided by a simple principle: student feedback should shape our decisions. Through the Dean–Student Forums, introduced for the first time in our Faculty's history, we meet students from every year of study and use their views and recommendations to help shape our future.

Our progress toward TEPDAD accreditation, work within the YÖKAK Institutional Accreditation Program, international academic collaborations and community-focused public health projects strengthen our role as a regional center for education, science and health.

Medicine is a lifelong journey of learning. We look forward to welcoming prospective students who wish to begin that journey at Adıyaman University Faculty of Medicine. Our aim is to educate not only capable physicians, but also ethical researchers committed to the well-being of individuals and society and to internationally recognized scientific standards.

"With best wishes for a healthy future and a rewarding journey in medicine."

Respectfully,

Prof. Dr. Ali Zeynal Abidin TAK

Dean · Adıyaman University Faculty of Medicine

FROM FOUNDATION TO TODAY

Adıyaman University Faculty of Medicine was established as part of Adıyaman University by the Council of Ministers decision dated 9 July 2007, following Adıyaman University Senate Decision No. 01-02 of 21 September 2006 and Council of Higher Education Decision No. 6881 of 6 December 2006.

Since its establishment, the Faculty has emerged as a respected medical school in the region through its qualified academic staff, integrated curriculum, strong clinical partnerships and student-centered approach. By June 2026, it had celebrated its eighth graduating class and contributed hundreds of physicians to healthcare in Türkiye and around the world.

Our Milestones

2006	Foundation decision of the Adıyaman University Senate
2007	The Faculty of Medicine was officially established
2018	First graduating class
2024	Affiliated clinical education with Adıyaman TRH was strengthened
2024	Protocol for the 17,000 m² Morphology and Lecture Hall Building signed with TOKİ
2025	Seventh graduating class: 120 physicians
2026	Dean–Student Forums launched for the first time
2026	Eighth graduating class · Accreditation process advanced
2026	Academic collaboration initiated with the University of Tuzla, Bosnia and Herzegovina

OUR MISSION AND VISION

MISSION

The Physicians We Educate

To provide high-quality medical education and train innovative, internationally competitive physicians and specialists who contribute to research at an international level; possess professional knowledge, skills and competencies aligned with international standards; uphold ethical principles and good clinical practice; respect patient rights and human dignity; and remain responsive to the needs of society and the wider world.

VISION

Where We Aspire to Be

To become a nationally and internationally preferred medical school in education, healthcare and research; to be recognized as the region's center for science, health and innovation; and to prepare graduates who make meaningful contributions to healthcare around the world.

Our Values

◆

Scientific Excellence

Evidence-based medicine and continuous research.

◆

Ethics and Transparency

Patient rights and professional principles are our priority.

◆

People-Centered Care

Compassion, empathy and benefit to society.

◆

Innovation

Digital transformation and innovative teaching methods.

◆

Community Engagement

Public health initiatives and community-based work.

◆

International Opportunities

International mobility and global collaboration.

OUR FACULTY'S MANAGEMENT TEAM

Adıyaman University Faculty of Medicine is led by an experienced academic leadership team. The Dean, Vice Deans, Division Heads and Department Heads are committed to student-centered, quality-driven and transparent governance.

Dean's Office

Prof. Dr.
Ali Zeynal Abidin TAK
Acting Dean · Neurology

Prof. Dr.
Öznur ULUDAĞ
Vice Dean · Anesthesiology and Reanimation

Assoc. Prof.
Ferit KAYA
Vice Dean · Public Health

Division Heads

Prof. Dr.
Önder YUMRUTAŞ
Head of the Division of Basic Medical Sciences

Prof. Dr.
Ramazan ULU
Head of the Division of Internal Medical Sciences

Prof. Dr.
Mehmet Özgür YÜCEL
Head of the Division of Surgical Medical Sciences

Faculty Administrative Secretary: *G. Esin KARAYILAN*

Administrative and academic support is provided by the Faculty Secretariat and administrative staff. Student affairs, correspondence, finance, additional-course administration, procurement, inventory and asset management, corporate communication and media services operate through the Proliz, EBYS, KBS, MYS and BAP systems, together with the Faculty's official website and social media channels.

135+ ACADEMICS, ONE SHARED VISION

With more than 135 faculty members and research assistants across three divisions, our Faculty is a dynamic medical school in Türkiye. Professors, associate professors, assistant professors and research assistants bring national and international publications, research projects and clinical experience to their respective fields.

Assoc. Prof. Yusuf ÖZAY
Assoc. Prof. İbrahim BOZGEYİK
Assoc. Prof. Esra BOZGEYİK

▶ Medical Microbiology

Prof. Dr. **Gülnur TARHAN** · *Head of Department*
Prof. Dr. Tuncay ÇELİK
Assoc. Prof. Sadık AKGÜN
Asst. Prof. Hasan BOZDAĞ
Res. Asst. Dr. Funda ŞAHİN
Res. Asst. Sümeyya ÇAPUK

DIVISIONS AND DEPARTMENTS

Our Faculty is organized into three main divisions comprising the departments listed below. This structure supports an integrated progression from the basic medical sciences to internal and surgical medicine.

BASIC MEDICAL SCIENCES

- Anatomy
- Biophysics
- Biostatistics and Medical Informatics
- Physiology
- Histology and Embryology
- Medical Biochemistry
- Medical Biology
- Medical Microbiology

INTERNAL MEDICAL SCIENCES

- Forensic Medicine
- Family Medicine
- Pediatrics
- Dermatology and Venereology
- Infectious Diseases and Clinical Microbiology
- Pharmacology and Clinical Pharmacology
- Physical Medicine and Rehabilitation
- Pulmonary Diseases
- Public Health
- Internal Medicine
- Cardiology
- Neurology
- Psychiatry
- Radiology
- Medical Genetics

SURGICAL MEDICAL SCIENCES

- Emergency Medicine
- Anesthesiology and Reanimation
- Neurosurgery
- Pediatric Surgery
- General Surgery
- Thoracic Surgery
- Ophthalmology
- Obstetrics and Gynecology
- Cardiovascular Surgery
- Otorhinolaryngology (ENT)
- Orthopedics and Traumatology
- Plastic, Reconstructive and Aesthetic Surgery
- Medical Pathology
- Urology

A NEW GENERATION OF MEDICAL EDUCATION

17,000 m² · 1.14 Billion TL Investment · Opening Soon

The New Morphology and Lecture Hall Building, being constructed in cooperation with TOKİ and scheduled for completion in 2026, will provide one of the region's most modern environments for medical education. Work began on 19 November 2024 under a protocol signed on 5 June 2024 with TOKİ (Republic of Türkiye Housing Development Administration), affiliated with the Republic of Türkiye Ministry of Environment, Urbanization and Climate Change. More than a new facility, the project represents the recovery of our university and city after the earthquakes of 6 February 2023.

Investment at a Glance

17,000 m²	12,000 m²	71 Units
MORPHOLOGY AND LECTURE HALL BUILDING	DENTISTRY TEACHING AND RESEARCH HOSPITAL HOSPITAL	STAFF HOUSING

What Will It Offer Our Students?

◆ **Modern Cadaver and Anatomy Laboratories**	Dissection halls equipped in line with international standards.
◆ **Large-Capacity Lecture Halls**	Digital presentation systems and interactive learning environments.
◆ **Integrated Preclinical Practice Areas**	Histology, biochemistry, physiology and microbiology laboratories.
◆ **Simulation and Clinical Skills Centers**	High-fidelity simulation before students enter real clinical settings.
◆ **Student Social Spaces**	Modern library, study rooms and cafeterias.
◆ **Built in Compliance with Current Earthquake Regulations**	High standards of safety, resilience and comfort.

Project Profile

Project Name	Adıyaman University Morphology and Lecture Hall Building, Faculty of Dentistry and 71 Housing Units Construction with Infrastructure and Landscaping Works
Contracting Authority	Republic of Türkiye Ministry of Environment, Urbanization and Climate Change — TOKİ
Contractor	Adıgüzeller İnşaat Taahhüt Sanayi Ticaret Ltd. Şti.
Contract Value	1,144,000,000 TL
Protocol Signed	5 June 2024
Construction Began	19 November 2024
Planned Completion	2026
Tender Registration No.	2024/1368283

"The physicians of the future will be trained on the campus of the future."

SIX-YEAR MEDICAL PROGRAM

Adıyaman University Faculty of Medicine offers a six-year, 360-ECTS medical program aligned with national and international standards. Based on UÇEP, it combines an integrated curriculum, early clinical exposure and student-centered learning, and is reviewed regularly by the Undergraduate Medical Education Board.

YEAR I	**PRECLINICAL · BASIC SCIENCES I** Cell biology, biochemistry, molecular biology, basic anatomy and physiology.
YEAR II	**PRECLINICAL · BASIC SCIENCES II** System-based integrated learning connecting pathology, pharmacology and microbiology with clinical care.
YEAR III	**DISEASE, DIAGNOSIS AND TREATMENT** Pathogenesis of diseases, principles of diagnosis and treatment; development of clinical reasoning skills.
YEAR IV	**CLINICAL CLERKSHIPS I** Rotational clinical clerkships in the internal and surgical departments.
YEAR V	**CLINICAL CLERKSHIPS II** Subspecialty rotations, specialty clinics and hands-on training. TUS preparation begins.
YEAR VI · INTERNSHIP	**INTERNSHIP YEAR** Students work directly with patients and assume supervised clinical responsibilities.

Highlights of Our Educational Approach

- ✓ Integrated Curriculum: Basic sciences and clinical practice are integrated throughout the program.
- ✓ Student Mentoring: Academic and psychosocial support from an assigned faculty mentor.
- ✓ Digital Learning Platforms: The Proliz Student Information System and distance-learning modules.
- ✓ Continuous Assessment: Module exams, OSCEs, MCQs and practical assessments.
- ✓ Faculty Development: Regular programs strengthen the teaching skills of academic staff.

OUR LABORATORIES AND EDUCATIONAL INFRASTRUCTURE

Our Faculty provides the laboratories and practical training spaces required for preclinical and clinical education. The anatomy cadaver dissection laboratory, biochemistry and molecular biology research laboratories, histology and embryology teaching laboratories, and microbiology and physiology practice areas offer extensive hands-on learning opportunities.

Hands-on learning in the Anatomy Cadaver Dissection Laboratory.

Our Laboratories

Anatomy Laboratory

Cadaver dissection hall, plastination specimens and 3D anatomy materials.

Histology and Embryology

Light and fluorescence microscopes, specimen examination areas, digital microscopy.

Medical Biochemistry

Enzyme kinetics, clinical biochemistry applications, spectrophotometric measurements.

Physiology Laboratory

ECG, EMG, respiratory physiology and cardiovascular practical training systems.

Medical Microbiology

Facilities for bacteriology, virology and parasitology applications.

Medical Biology and Genetics

Molecular biology applications, PCR and genetic analysis capabilities.

Biophysics Laboratory

Biophysical measurement systems, radiation safety and dosimetry applications.

Clinical Skills and Simulation

A modern simulation center scheduled to open in the new building.

Central Research Laboratory (ADYUMED)

Faculty researchers have access to advanced instrumentation at the Adıyaman University Central Research Laboratory Application and Research Center. HPLC, GC-MS, electron microscopy, flow cytometry and molecular analysis facilities support our ambition to serve as a regional research center.

ADIYAMAN TRAINING AND RESEARCH HOSPITAL

Where knowledge becomes clinical practice.

Republic of Türkiye Ministry of Health · Adıyaman Training and Research Hospital

Students complete clinical clerkships in Years 4 and 5 and their internship in Year 6 at affiliated Adıyaman Training and Research Hospital. One of the region's best-equipped healthcare institutions, the hospital offers a broad case mix across extensive outpatient services, inpatient wards and intensive care units.

Clinical training is delivered under the affiliation protocol between the Faculty of Medicine and the Ministry of Health, in coordination with the hospital administration led by Chief Physician Asst. Prof. Mehmet TEPE. This collaboration connects classroom learning with the supervised care of real patients.

The Clinical Education Process

CLERKSHIP TRAINING

YEARS 4–5

Rotational clerkships in internal and surgical clinics.

INTERNSHIP

YEAR 6

Supervised responsibility for patient care. Preparation for the TUS (National Entrance Examination for Specialty Training in Medicine of Türkiye).

Institutions We Collaborate With

- ✓ Adıyaman Training and Research Hospital (Chief Physician: Asst. Prof. Mehmet TEPE — a member of our faculty)
- ✓ Provincial Health Directorate (Provincial Health Director: Prof. Dr. Mehmet ŞİRİK — a member of our faculty)
- ✓ Family Health Centers (field practice of the Department of Public Health)
- ✓ Adıyaman Medical Chamber (professional development and mentoring collaborations)

WHY CHOOSE ADIYAMAN UNIVERSITY FACULTY OF MEDICINE?

Choosing a medical school is one of life's most important decisions. Here are ten reasons to choose Adıyaman University Faculty of Medicine:

01 **ECFMG Eligibility Pathway**
Eligible graduates may pursue the ECFMG pathway required to apply for residency training in the United States.

02 **17,000 m² Campus Expansion**
Our modern Morphology and Lecture Hall Building opening in 2026.

03 **Distinguished Academic Community**
More than 135 faculty members and research assistants, with active participation in national research initiatives, including TÜSEB-funded projects.

04 **Student-Centered Governance**
Dean–Student Forums and the Student Quality Ambassadors Program support direct student participation in institutional improvement.

05 **Extensive Clinical Training**
Supervised clinical training across a broad case mix at Adıyaman Training and Research Hospital.

06 **Modern Integrated Curriculum**
A UÇEP-compliant, 360-ECTS program. Early clinical contact and student-centered education.

07 **Commitment to Accreditation**
Participation in the YÖKAK Institutional Accreditation Program and the TEPDAD accreditation application process.

08 **International Opportunities**
Active collaborations through the Erasmus+, Farabi and Mevlana programs and with the University of Tuzla, Bosnia and Herzegovina.

09 **A Green and Peaceful Campus**
Palm-lined walkways, flowered park areas and student-friendly social spaces.

10 **Accessible Quality of Life**
Adıyaman's affordable cost of living, student-friendly urban environment and rich historical and cultural heritage.

A GLOBAL OUTLOOK

Adıyaman University Faculty of Medicine pursues education and research beyond national borders. Exchange and collaboration opportunities for students and academic staff foster a global perspective and help prepare physicians for international practice.

International Recognition: The ECFMG Eligibility Pathway

★ECFMG Eligibility for Students and Graduates

Eligible students and graduates may apply for ECFMG Certification and pursue the pathway toward residency training in the United States, subject to all ECFMG, examination and residency-program requirements.

International Exchange Programs

ERASMUS+

Student and staff mobility with European Union countries.

FARABİ

Semester- or year-long student exchange among universities in Türkiye.

MEVLANA

Reciprocal exchange programs with Turkic countries and other partner nations.

International Academic Collaborations

University of Tuzla, Bosnia and Herzegovina (2026)

Discussions held in May 2026 between representatives of our Faculty and the University of Tuzla initiated a multidimensional academic partnership. The continuing dialogue focuses on joint research, student exchange, academic mobility and future areas of cooperation.

For the current list of Erasmus+ bilateral agreements: **erasmus.adiyaman.edu.tr**

STEADY PROGRESS TOWARD ACCREDITATION

Adıyaman University Faculty of Medicine is steadily aligning its systems with national and international quality standards. Our quality assurance framework draws on TSE and TEPDAD standards and is supported by the Plan–Do–Check–Act cycle, internal and external stakeholder participation, and corrective-action mechanisms.

YÖKAK

Institutional Accreditation Program

Our Faculty is actively taking part in the Higher Education Quality Council's 2024-2025 Institutional Accreditation Program. Our self-assessment reports are being prepared and improvement processes are being carried out systematically.

TEPDAD

Medical Education Accreditation

The accreditation application process with the Association for Evaluation and Accreditation of Medical Education Programs (TEPDAD) is actively under way.

Our Quality Assurance Structure

- Faculty Total Quality Management Commission
- Self-Assessment Commission
- Student Quality Ambassadors System
- Internal Stakeholder Advisory Board
- External Stakeholder Advisory Board
- Undergraduate Medical Education Board
- Continuing Medical Education Board
- Training of Trainers Program
- Examination Commission and Assessment
- Compliance with the National Core Education Program (UÇEP)

A FACULTY ADVANCING SCIENCE

Through publications in national and international indexes, funded projects and scientific meetings, our Faculty contributes actively to the region's research culture. Faculty members participate in projects supported by TÜBİTAK, TÜSEB, BAP and European Union programs.

Highlighted Achievements (2025 – 2026)

MARCH 2026	**Continued Growth in Scientific Publications** Publications by our faculty members in internationally indexed journals continue to strengthen our academic profile.
JUNE 2026	**TÜSEB A4 Research Project Funded** A project funded under the TÜSEB A4 program is being conducted by members of our Faculty.
MAY 2026	**Regional Meeting on Wrist Arthroscopy** We hosted a regional meeting in collaboration with the Wrist Arthroscopy Society.
JULY 2026	**Regional Meeting on Brain Death and Donor Care** An important regional meeting was held in collaboration with the Turkish Society of Intensive Care (TYBD).
JUNE 2026	**Science Café Meetings** Public science events on lifelong learning and brain health.

Our Research Infrastructure

BAP Research Funding
Internal project funding through the Scientific Research Projects Coordination Unit.

Central Research Laboratory
Access to the advanced instrument infrastructure within ADYUMED.

Ethics Committees
Non-Interventional Clinical Research and Clinical Research Ethics Committees.

National and International Funding
Support for applications to TÜBİTAK, TÜSEB, EU and BAP funding programs.

COMMUNITY ENGAGEMENT

Adıyaman University Faculty of Medicine believes that physicians should serve not only in hospitals but throughout the community. Fieldwork, awareness campaigns and school visits led by the Department of Public Health reflect our commitment to social responsibility.

Some of Our Featured Activities

Zero Waste Project

An exemplary environmental awareness activity conducted by our Department of Public Health.

World No Tobacco Day

Awareness education on tobacco and health at Borsa İstanbul Anatolian High School.

Vaccine Awareness and Education Days

Field work aimed at raising public health awareness.

Science Café Meetings

Public science events on lifelong learning and brain health.

Drinking Water Treatment Technical Visit

A field visit to the Kahta Municipality Drinking Water Treatment Plant.

Adıyaman Medical Chamber Collaboration

Career, mentoring and community health partnerships with the local professional association.

★ OUR HEADLINES ★

RECENT HIGHLIGHTS

A selection from our Faculty's headlines over the past year: our standout achievements in education, science, health services and social responsibility.

◆ MEDICAL MILESTONES FOR THE REGION

Incisionless Hysterectomy Using the V-NOTES Method

The city's first incisionless hysterectomy using the V-NOTES method marked an important advance in minimally invasive surgery in the region.

A First for Adıyaman in Aortic Dissection Surgery

A patient with critical aortic dissection was successfully treated in Adıyaman for the first time using total circulatory arrest.

Success in the First Corneal Transplants After the Earthquake

The city's first series of corneal transplants after the earthquakes of 6 February was completed successfully, helping restore patients' sight.

◆ OUR SCIENTIFIC ACHIEVEMENTS

Our Scientific Journal Was Launched

The official scientific journal of Adıyaman University Faculty of Medicine was established, and preparations for its first issue began.

TUSEB-A4 Group Project Was Accepted

A project submitted by our faculty members under the TÜSEB A4 program was accepted and received national funding.

Continued Growth in Scientific Publications

Our faculty members made an important contribution to our Faculty's academic prestige with studies published in internationally indexed journals.

A Faculty Contributing to the Region

◆ REGIONAL EDUCATION & EVENT LEADERSHIP

Regional Meeting on Brain Death Diagnosis and Donor Care in Collaboration with TYBD

The regional meeting, jointly organized with the Turkish Society of Intensive Care, brought together participants from neighboring provinces.

Adıyaman Regional Meeting on Wrist Arthroscopy

Our Faculty hosted a regional meeting in the field of Orthopedics and Traumatology.

Mechanical Ventilation Course – Strong Participation from Regional Provinces

The course brought together participants from across the region for practical training in intensive care.

Oncology in All Aspects Symposium

The symposium, which addressed multidisciplinary oncology approaches, was successfully completed with strong participation from academics and health professionals.

◆ QUALITY, ACCREDITATION & COLLABORATIONS

TS EN ISO 9001:2015 External Audit Successfully Completed

The external audit confirming that the institutional quality management system operates in line with international standards was completed successfully.

Academic Collaboration with the University of Tuzla, Bosnia and Herzegovina

The meeting held with the University of Tuzla paved the way for joint academic and student mobility projects.

Faculty Development Program

The Faculty Development Program strengthened faculty teaching skills and was completed successfully.

Engaged with the Community, Together with Our Students

◆ SOME OF OUR COMMUNITY ENGAGEMENT ACTIVITIES

Science Café Meetings

A welcoming science communication program that brings researchers and the public together to discuss lifelong learning and brain health.

From the Science Café session titled "What Changes in the Aging Brain?"

Breast Cancer Awareness Education in Collaboration with MEMEDER

The breast cancer awareness program emphasized early diagnosis and was delivered in partnership with civil society.

Campus Orientation for High School Students under the HİKMET Project

Under the Ministry of National Education's HİKMET Project, high school students visited the Faculty and explored the medical profession.

Obesity and Healthy Living Education at Milli İrade Secondary School

The school-based program promoted early public health awareness through direct student engagement.

◆ STUDENT ACTIVITIES & ACHIEVEMENTS

Outstanding Intern of the Year Award

The Department of Emergency Medicine presented its Outstanding Intern of the Year Award.

"Art in Anatomy" Painting Exhibition

The "Art in Anatomy" exhibition brought science and art together and highlighted student creativity.

Faculty of Medicine Career Days

Career Days gave students practical insight into specialty training, academic careers and professional life in medicine.

"Back on Campus" Alumni Reunion

Graduates reunited at "Back on Campus 2025," reflecting the strength of our alumni network.

DEAN–STUDENT FORUMS

★ A DISTINCTIVE INITIATIVE

Introduced for the first time in our Faculty's history, the Dean–Student Forums create a transparent and sustainable channel through which students can share their views, suggestions and requests directly with Faculty leadership.

Led by Dean Prof. Dr. Ali Zeynal Abidin TAK, the program reflects our commitment to viewing students not only as learners, but also as valued partners in institutional development.

Our Core Principles

Transparency
Open and honest communication in academic and administrative processes.

Participation
Active involvement of students in decision-making processes.

Sustainability
A regular, planned and systematic approach to dialogue.

2025 – 2026 Meeting Schedule

The meeting program, covering all six years of our Faculty, was held in three different conference halls. The forums will continue as a regular feature of future academic years.

YEAR	DATE	TIME	VENUE
Year I	22 April 2026	14.00 – 15.00	Ibn Sina Conference Hall
Year II	14 April 2026	15.30 – 16.30	Farabi Conference Hall
Year III	13 April 2026	15.30 – 16.30	Ibn Sina Conference Hall
Year IV	14 May 2026	13.00 – 13.30	TRH Conference Hall
Year V	7 May 2026	13.00 – 13.30	TRH Conference Hall
Year VI	21 May 2026	13.00 – 13.30	TRH Conference Hall

A CAMPUS SURROUNDED BY GREENERY

With rose gardens, palm-lined walkways, shaded seating areas and social spaces surrounded by nature, Adıyaman University Campus offers students both an inspiring place to learn and a peaceful environment in which to live.

Between classes: a book, a coffee and the shade of a palm tree...

A PLACE READY TO WELCOME YOU

Every corner of the Adıyaman University campus is ready to welcome you: benches for resting after an exam, open spaces for meeting friends and gazebos for morning coffee. Throughout your medical education, the campus offers room to recharge both mentally and physically.

Extensive Green Areas
Well-kept parks, gardens and walkways

Social Gathering Areas
Cafeterias, benches and gazebos

Landscaped Gardens
Seasonal flowers, palms and roses

"Learning also requires space to breathe."

MORE THAN AN ACADEMIC STUDY

Student life at our Faculty extends well beyond the lecture hall. Social, cultural and scientific activities support your development as both a capable physician and a socially responsible individual.

Our Traditional Events

Orientation and Welcome Week

A program introducing new medical students to the Faculty and the city.

White Coat Ceremony

A meaningful ceremony in which students receive the white coat, a symbol of the medical profession.

14 March Medicine Day

The origins of modern medical education in Türkiye are commemorated through traditional Medicine Week events.

Culture and Sports Festival

A program of cultural and sporting events held in April and May.

Graduation Ceremony

A ceremony at which we proudly celebrate our eighth graduating class of physicians.

Scientific Congresses

An active academic calendar hosting regional and national congresses.

Student Mentoring

Faculty mentors provide students with guidance on academic, social, cultural, financial and psychological matters.

★ OUR GRADUATION ★

A PROUD DAY IN WHITE COATS

June 2026 · Eighth Graduation Ceremony · Adıyaman University Faculty of Medicine is proud to have contributed hundreds of physicians to healthcare in Türkiye and around the world. As each graduating class completes one chapter of medical education, its members begin the next stage of their professional journey.

◆ ◆ ◆

"Today a dream, tomorrow a physician… You're next."

Adıyaman University Faculty of Medicine · 8th Class Graduation Ceremony · June 2026
