Mission & Vision

Mission

Having sufficient basic knowledge in fields such as management and accounting, human resources, production, marketing and finance, being able to interpret and evaluate data using the basic level of knowledge and skills acquired in the field, being able to identify organizational problems, creating projects and making the necessary analyses, being able to identify and use information technologies effectively, and having a team spirit, To train employees who have communication knowledge and skills, and foreign language knowledge to follow the innovations in their field.

Vision

To be a department preferred by students and to be a department that produces qualified graduates sought by the industry.

Importance of Business Management Department

Business Management Program is an associate degree department that provides training in order to train qualified manpower with the knowledge, skills and training equipment needed by local, regional, national and international businesses and public institutions operating at various scales.

Why Department of Business Management?

The Business Administration major is an excellent choice for students who want to work in the business world. The Department of Business Administration provides students with knowledge and skills on subjects such as business management, finance, marketing, human resources and strategic planning. These knowledge and skills are the basic tools needed to have a successful career in business. The Business Administration department provides students with the theoretical and practical knowledge necessary to work in the business world. The business world is becoming more complex every day, and the business administration department prepares students to keep up with these changes. The business major helps students understand the financial, managerial and marketing aspects of business operations. This enables students to contribute to the decision-making process in the business world.

JOB OPPORTUNITIES FOR OUR GRADUATES

Students graduating from the Business Management Program, especially public institutions and, increasingly, the private sector organizations, general management, personnel management, research and In departments such as development, in a sense, every aspect of management They can work at the following level. Program graduates receive As a result of education, the private sector, except for some services, It has the formation to work at all levels. this program. Candidates who are considering choosing should have strong social relations and to educate themselves so that they do not have difficulty in communicating, It is an indispensable condition for them to be successful in their professional life.

Our Highest and Lowest Placement Scores According to Central Placement

ÖSYM, announced by the Measurement, Selection and Placement Center Presidency, will be applied to our department in 2024. The highest and lowest scores will be determined according to the placement results. A total of 30 students will be accepted
