## Our Department

Department of chemistry was established in 2001 as affiliated to Inonu University and in 2006 it was affiliated to Adiyaman University Faculty of Arts and Sciences. Our department started education in the 2008-2009 academic year. In chemistry department, there are five primary research areas which are Analytical Chemistry, Inorganic Chemistry, Biochemistry, Physical chemistry and Organic Chemistry. There are 4 professors, 3 associate professor in our department.

**Head of Department** Assoc. Prof. Dr. Ceyran AHMEDOVA

**Assistants to Head of Department** Assoc. Prof. Dr. Hasan KARADAĞ

### **Academic Staff**

Prof. Dr. Adnan KURT  
Prof. Dr. Cumhuri Kırılmış  
Prof. Dr. Beyhan YİĞİT  
Prof. Dr, Gamze BARIM  
Assoc. Prof. Dr. Ceyran AHMEDOVA  
Assoc. Prof. Dr. Hasan KARADAĞ  
Assoc. Prof. Dr. Murat GENÇ

### **Department Secretary**

Enver MAMAK

## Mission & Vision

### Mission

The mission of our department is to train researchers and practitioners who can adapt to the competitive order of the modern world, have high self-confidence, strong entrepreneurial aspect. In addition, it is to be aware of the problems faced by humanity, to make researches on these issues, to produce projects and to contribute to the development of the country by transforming the results into technology.

## Vision

Our vision is to educate chemists who will be successful anywhere on the world, to create a competitive environment to bring chemistry education and research to an equivalent level with the world's qualified universities, to make new research with its research infrastructure and competent teaching staff, to produce information and to present this information to the benefit of humanity.

## Importance of Chemistry Departments

Chemistry is a science that studies all substances in nature. It especially examines the structures of substances and their interactions with each other. Chemical research leads to new products ranging from drugs to multicolored television screens. Chemistry, biotechnology, molecular biology, pharmacy, environmental, material sciences etc. it contributes and therefore occupies a central place in modern science. Chemistry, leads the development of other sciences and technology. In addition to creating scientific research knowledge in the field of chemistry, it will always maintain its importance by offering new products for the benefit of technology and the humanity

## Why Chemistry Department

- ✓ Strong infrastructure and research,
- ✓ Practical training opportunities with modern laboratories and devices
- ✓ Academic staff who have proven their success in their fields with many awards, publications and projects,
- ✓ Sincere student-teacher relationship,
- ✓ A curriculum suitable for modern and contemporary needs,
- ✓ Research opportunity in laboratories with lecturers,
- ✓ Various sports and cultural activities,

## Employment Opportunities for Our Graduates

- **Chemical Industry;** Research & Development and quality control laboratories.
- **Pharmaceutical Industry;** Research & Development, quality control laboratories, marketing product managers.
- **Environmental and Health Laboratories**
- **Textile and Paint Industry**
- **Food Sector;** quality control, product development and marketing departments.
- **Polymer Industry;** coating and plastics industries.
- **Chemistry Teacher** (If pedagogical formation is taken)
