Our Faculty

The Faculty of Arts and Sciences of Adıyaman University was established in accordance with the decision of the Council of Ministers dated 12.08.1998 and numbered 1998/11641, pursuant to the additional Article 30 of Law No. 2809, following the letter dated 04.08.1998 and numbered 21035 from the Ministry of National Education. Our first faculty building was constructed in 1997 by the tradesmen of Adıyaman, under the leadership of the Adıyaman Tradesmen and Craftsmen Credit and Guarantee Cooperative.

The Faculty of Arts and Sciences has played an important role within the general structure of the University, both in terms of the quality of its courses and in offering some of the courses included in the programs of other faculties.

There are 11 departments in our faculty: Archaeology, Biology, Physics, English Language and Literature, Chemistry, Mathematics, Psychology, Art History, Sociology, History, Turkish Language and Literature. Among these departments, **Archaeology**, **Biology**, **English Language and Literature, Mathematics**, **Psychology**, **Art History**, **Sociology**, **History**, and **Turkish Language and Literature** have undergraduate student quotas. As of the 2025-2026 academic year, the faculty has 1913 students. In addition, the departments of Biology, Physics, Chemistry, Mathematics, Sociology, History, and Turkish Language and Literature also offer graduate degree programs.

Mission&Vision

MİSSİON

To raise individuals who respect human values, are devoted to their country and nation, serve as role models for society, and contribute to social development by sharing knowledge gained through research.

VİSİON

To be a faculty that conducts advanced scientific research in the fields of social and natural sciences, and both publishes its work and translates it into production at national and international levels.

ADIYAMAN UNIVERSITY
FACULTY of ARTS and SCIENCES

The Importance of Faculties of Arts and Sciences

Basic sciences are fields where essentially the sense of "curiosity" is tested. In this respect, the contribution of basic science research is great in understanding nature and human beings as part of nature, in the creation of the infrastructure of applied sciences, in the production of science, and in the conceptualization of knowledge. Basic sciences and the resulting technology are concepts that accelerate each other's progress when implemented together.

A country's level of development is closely related to the quantity and quality of basic science research and to the importance given to it. Research in basic sciences is an indication of how much we contribute to civilization. Universities are places where scientific production is most widely put into practice. The quality of an academic institution that does not value basic sciences is questionable. We cannot ignore the fact that only when the results of numerous basic research projects are brought together can a problem be illuminated.

In this context, advancing in basic sciences is critically important for achieving our country's goals. There are three main reasons for this:

- Firstly, we must produce original technologies instead of importing them from abroad. The key to being original is in basic sciences.
- Secondly, the emergence of indispensable products is thanks to the progress in basic sciences.
- Thirdly, companies that have carried their countries into the top 10 economies conduct basic research in their R&D centers.
- Adıyaman University Faculty of Arts and Sciences, with its faculty members who are aware of all these facts, has made it its motto to provide the best possible education to all its current and prospective students.

Why Faculty of Arts and Sciences?

- The Faculty of Arts and Sciences conducts its educational activities in harmony with other faculties through its existing academic units.
- In accordance with the letter of YÖK (Council of Higher Education) dated January 2, 2023 and numbered E-75850160-104.01.07.01-260, regarding Pedagogical Formation Training, our students can graduate by including their pedagogical formation courses in their study period if they request it from their respective departments (Biology, English Language and Literature, Mathematics, Sociology, History, and Turkish Language and Literature Departments).
- Throughout the academic year, a sufficient number of elective courses as well as the courses offered in the programs at our Faculty are taught by competent academicians.
- Our Faculty ensures that our students benefit maximally from all the resources of our University. In this context, orientation programs are implemented for all students starting to study at our Faculty at the beginning of the academic year, with the aim of improving the quality of education, developing the research dimension, and introducing the social infrastructure.
- Thus, the Faculty of Arts and Sciences aims to provide its students with access to facilities such as library, sports facilities, computers, Internet, and laboratories quickly and efficiently.
- An adequate number of canteens, cafeterias, and dining halls are available on our university campus to meet all the needs of our students for quality and healthy food and beverages.
- All kinds of social activities that can enhance the knowledge and experience of our students are organized by the Science and Art Platform, which was established at the University for the first time by our Faculty.

DEAN

Prof. Dr. İbrahim Halil TUĞLUK

Vice Deans

Prof. Dr. Bilal Eftal ACET

Our Departments

Department of Archaeology

The Department of Archaeology at Adıyaman University aims to train qualified scientists and personnel who instill a sense of historical awareness in their students, conduct research, and strive to reach the truth. Graduates, who receive the title of Archaeologist, can work in the Ministry of Culture and Tourism, public and private museums, municipalities, cultural and natural heritage protection boards, organizations with cultural heritage management, construction companies, and businesses requiring special methods related to the field of archaeology. Moreover, they can also work as academicians.

The Department of Archaeology continues to offer courses with 2 Professor Doctors, 3 Assistant Professors, and 2 Doctor Research Assistants.

Department of Biology

The Department of Biology at Adıyaman University Faculty of Arts and Sciences started offering education at the undergraduate and graduate levels in the 2009-2010 academic year. Having completed all infrastructure projects by 2014, our department successfully continues its undergraduate, graduate, and doctoral education. The department has a total of seven divisions.

The Department of Biology has an Aquatic Toxicology Laboratory, a Herbarium, Student Laboratories, a Zoology Laboratory, and Research Laboratories that are all actively used.

Furthermore, according to the accreditation certificate issued by FEDEK, our Undergraduate Program has been accredited for the period between May 8, 2026, and September 30, 2028. This accreditation certifies that the program's educational activities, academic structure, quality assurance system, student-centered approach, and continuous improvement efforts meet national quality standards.

The Biology Department continues to offer courses with 8 Professor Doctors and 1 Associate Professor Doctor.

Department of Physics

The Department of Physics, which was part of the Adıyaman Faculty of Arts and Sciences under İnönü University in 2001, became part of Adıyaman University and admitted its first students in the 2008-2009 academic year.

The Physics Department, with its dynamism and sense of responsibility stemming from being a young department, must pursue many goals simultaneously. These goals can be summarized as follows:

To keep our country's scientific activities in the field of physics at a contemporary and international level, ensuring its recognition among nations that lead and have a say in science.

To follow advanced technologies and contribute to the competitiveness of the country's industry by continuing educational and research activities on these subjects.

To assume a pioneering and improving role at all levels of physics education and applications in the country.

The Physics Department continues to offer courses with 3 Professor Doctors, 1 Associate Professor and 1 Assistant Professor.

Department of English Language and Literature

The Department of English Language and Literature of Adıyaman University was established in 2006 within the Faculty of Arts and Sciences of Adıyaman University. It started admitting students in the 2018-2019 academic year, with a student quota of 40. The language of instruction in our department is English, and placement is done based on the foreign language score type of the Higher Education Institutions Examination. Students who are accepted to our department will take an English proficiency exam. Students who successfully pass this exam will begin their first year; those who fail will receive one year of compulsory English preparatory education.

The Department of English Language and Literature offers an interdisciplinary education. Students gain professional-level written and spoken English proficiency through English skills courses. Moreover, they develop comparative and critical thinking skills by engaging in in-depth study of English literature, history, and culture through literature courses. Through British cultural studies courses, they acquire awareness of both their own culture and the target culture, as well as the competence to make cultural comparisons.

Furthermore, according to the accreditation certificate issued by FEDEK, our Undergraduate Program has been accredited for the period between May 8, 2026, and September 30, 2028. This accreditation certifies that the program's educational activities, academic structure, quality assurance system, student-centered approach, and continuous improvement efforts meet national quality standards.

The English Language and Literature Department continues offering courses with 3 Associate Professors, 5 Assistant Professors, and 1 Doctor Research Assistant.

Department of Chemistry

Established in 2001 under the Adıyaman Faculty of Arts and Sciences affiliated with İnönü University, the Department of Chemistry started offering education in the 2008-2009 academic year.

The mission of the Department of Chemistry is to cultivate individuals who have a research-oriented and entrepreneurial spirit, who are inquisitive, participatory, and dynamic, and who uphold their cultural values and think universally in organic chemistry, physical chemistry, inorganic chemistry, analytical chemistry, and other sub-disciplines of chemistry. Moreover, the Department of Chemistry aims to serve humanity by fostering the development of science and technology and to contribute to the development of the country and the region.

Our goal is to be a pioneering department with an entrepreneurial spirit open to technological innovations and international competitiveness and to conduct creative and beneficial research at an international level in various fields that will leave a mark on human history under the guidance of its teaching staff equipped with the knowledge, experience, and infrastructure required by the 21st century.

The Chemistry Department continues offering courses at the postgraduate (Master's and Doctorate) level with 4 Professor Doctors and 2 Associate Professor Doctors.

Department of Mathematics

The Department of Mathematics was established in 1998 under İnönü University. Later, it became a part of the Faculty of Arts and Sciences of Adıyaman University, which was established in 2006. It has been offering education under Adıyaman University since then.

The mission of the Department of Mathematics is to educate individuals who can conduct scientific research at an international level, are self-confident, can follow new developments, have internalized fundamental academic mathematics and mathematical thinking, and will gain respected positions in both the scientific life of our country and in society and the business world through the education they receive.

Graduates of the Department of Mathematics can pursue an academic career by receiving master's and doctoral education at universities in Türkiye or abroad. Moreover, they can also work as teachers in secondary schools, private high schools, and tutoring centers after completing their teacher training.

Furthermore, according to the accreditation certificate issued by FEDEK, our Undergraduate Program is accredited for the period between March 21, 2025, and September 30, 2027. With this accreditation, the program's educational activities, academic structure, quality assurance system, student-centered approach, and continuous improvement efforts have been certified in terms of national quality standards.

The Mathematics Department continues offering courses with 7 Professor Doctors, 5 Associate Professor Doctors, 1 Assistant Professor, 1 Lecturer Doctor, and 2 Doctor Research Assistants.

Department of Psychology

The Psychology Department of Adıyaman University Faculty of Arts and Sciences started its activities by accepting its first students in the 2025-2026 academic year. The first main aim of the Psychology Department is to produce qualified graduates who are equipped with the knowledge of basic psychology, who can transform the knowledge they have learned into practice, who have a critical perspective and a capacity for scientific thinking and research skills, who attach importance to ethical values and social responsibilities, who follow innovations, and who will specialize and work in various fields of psychology. The second main aim of the Psychology Department is to contribute to the development of the science of psychology with the original and high-quality scientific studies it will conduct. Our undergraduate program consists of three main sections: compulsory courses, area elective courses, and university-wide elective courses. To graduate, students must successfully complete a total of 240 ECTS credits, in addition to the credit amount specified in the course plan for the year they are enrolled. The Psychology Department offers courses with 1 Professor, 2 Assistant Professors, and 3 Research Assistants.

Department of Art History

The Department of Art History at Adıyaman University Faculty of Arts and Sciences was established in 2007 and began admitting students in the 2008-2009 academic year.

The Department of Art History is a branch of science that examines material cultural assets formed throughout history.

It aims to contribute to the understanding of art by examining the formation, function, and logic of visual arts in various fields, and by making interpretations on artists and works.

Another ultimate goal of our department is to educate students who know the main periods and fundamental characteristics of Turkish-Islamic, Byzantine, and European art, and who can understand and analyze their relationships and exchanges of influence with other cultural environments. Moreover, the Department of Art History aims to train art historians who have acquired the skills and methods of research, examination, documentation, evaluation, interpretation, and presentation of previously unknown aspects of art history.

The Department of Art History continues offering education with 2 Associate Professors, 2 Assistant Professors, 1 Lecturer, and 2 Research Assistants.

Scan me

Department of Sociology

The Sociology Department of Adıyaman University Faculty of Arts and Sciences began to admit students in the 2008-2009 academic year.

The Sociology Department in our faculty aims to train sociologists who can understand and explain the social realities of Turkey and who possess the necessary knowledge and skills in this regard.

Our department offers education through activities that are closely integrated with society. In this regard, the main aims of the Sociology Department are to improve students' observation skills, equip them with communication skills, develop critical thinking, produce scientific knowledge, share scientific knowledge with society, and contribute to the awareness of society.

Graduates of the Sociology Department can pursue postgraduate studies under suitable conditions. What is more, they can also work in public institutions

such as the State Planning Organization, the Ministry of Agriculture and Forestry, and the Ministry of Labor and Social Security, as well as in private sector institutions and organizations.

The Sociology Department continues offering courses with 1 Professor, 6 Associate Professors, 2 Assistant Professors, and 3 Doctor Research Assistants.

Scan me

Department of History

The Department of History of Faculty of Arts and Sciences of Adıyaman University began to admit students in the 2008-2009 academic year.

Graduates of the History Department will be able to work as academics in universities after completing their master's and doctoral degrees.

Graduates will also be able to work as history teachers in state and private schools affiliated with the Ministry of National Education after taking pedagogical training courses, as well as in public institutions such as the Ministry of Culture, the General Directorate of State Archives of the Prime Ministry, the Turkish Grand National Assembly Library, the State Statistics Institute, the Military History and Strategic Studies Directorate of the General Staff, the Turkish Historical Society, the Atatürk Research Center, and the Atatürk Cultural Center.

The History Department continues offering courses with 5 Professor Doctors, 3 Associate Professor Doctors, 2 Assistant Professors, 1 Lecturer, and 1 Research Assistant.

Department of Turkish Language and Literature

The Department of Turkish Language and Literature at Adıyaman University was established in 1998 as part of the Faculty of Arts and Sciences at İnönü University in Adıyaman and began admitting students in the 1999-2000 academic year. In 2006, it was affiliated with the Faculty of Arts and Sciences at Adıyaman University.

The Department of Turkish Language and Literature aims to provide its students with the necessary knowledge on Turkish Language, Turkish Literature, Folklore, Turkish Culture, and Turkish History and to offer original and innovative education at an international level, incorporating the accumulated knowledge of our field to date.

Our department aims to contribute to social and cultural development by equipping its students with reading, writing, and communication skills in Ottoman Turkish and Turkish dialects using different alphabets. Graduates of this department can become Turkish Language and Literature teachers by participating in the "Non-Thesis Master's Program in Subject Teaching".

Furthermore, according to the accreditation certificate issued by FEDEK, our Undergraduate Program has been accredited for the period between March 21, 2025 and September 30, 2027. This accreditation certifies that the program's educational activities, academic structure, quality assurance system, student-centered approach, and continuous improvement efforts meet national quality standards.

The Department of Turkish Language and Literature continues offering courses with 3 Professor Doctors, 4 Associate Professor Doctors, 2 Assistant Professors, and 1 Research Assistant.

We have a total of **98** Academic Staff and **7** Administrative Staff.

Our Laboratories

The Faculty of Arts and Sciences has 3 student laboratories in the Physics Department, 1 instrumental analysis laboratory, 2 student laboratories, and 3 research laboratories in the Chemistry Department, 1 student laboratory, 3 student laboratories, 1 herbarium, and 1 zoology laboratory in the Biology Department, and 1 student laboratory in the Archaeology Department. Our laboratories are fully equipped and effectively used for both education and research under the guidance of our expert faculty members.

Faculty of Arts and Sciences
Education & Social Activities

This is a platform that was first established within the Faculty of Arts and Sciences, aiming to enhance the scientific and social experiences of our students.

❖ Establishment

The Faculty of Arts and Sciences Science and Art Platform was established on October 5, 2017, as a result of the efforts initiated with the support of Prof. Dr. Mustafa Talha GÖNÜLLÜ, who served as the Rector of our University between 2011-2019, and the initiatives of Prof. Dr. İbrahim Halil TUĞLUK, the Dean of the Faculty of Arts and Sciences.

❖ Purpose

The aim of the platform is to teach our students academic values and enable them to access information by making them a part of their environment socially and culturally.

❖ Why the Science and Art Platform?

The platform provides sharing environments where young people can display their talents and gain experience. This is the first time a Science and Arts Platform for students has been established within a faculty at our university.

Activities

Social experiences, technical trips, theater, music, story and poetry workshops, radio programs, artistic activities.

Why Should I Join Student Clubs?

The general aims of student societies established at universities are geared towards supporting students' academic, social, cultural and personal development. These societies enrich university life whilst also helping students to acquire a range of skills.

Its general objectives can be summarised as follows:

Our Student Societies

Our Student Societies

Archaeology Society

Knowledge and Culture Society

Language and Culture Society

Physics Society

Young Historians Society

Wandering Souls Society

English Language and Literature Society

Ancient Arts Society

Mathematics Society

Psychology Society

Art History Society

Sociology Society

Society and Culture Society

Turkish History and Culture Society

biri olan İstanbul'daki varoluş süreçlerini; kimlik inşası, mekânın
toplumsal üretimi ve eğitimin kurumsal rolü bağlamında ele alan

"İstanbul Keldanileri: Kimlik, Mekân, Eğitim Ve Toplumsal Oluşum Süreci"

isimli kitapları yayımlandı.

Kitabın hazırlanmasında emeği geçen bütün öğretim elemanlarımıza teşekkür eder,
yeni çalışmalarında başarılar dileriz.

Fakültemiz Tarih Bölümü Öğretim Üyeleri
Prof. Dr. Murat Gökhan DALYAN, Doç. Dr. Muhammet Nuri TUNÇ
ve Rektörlüğümüz öğretim elemanı Dr. Özgür ERBULUT'un
yazar olarak yer aldığı, Prof. Dr. Ünal TAŞKIN'ın editörlüğünü yaptığı,
Osmanlı İmparatorluğu'nun çok katmanlı toplumsal yapısı içerisinde kendine özgü bir yeri olan
Siirt Keldani Metropolitliği'ni tarihsel ve sosyolojik bir perspektifle incelemeyi amaçlayan,

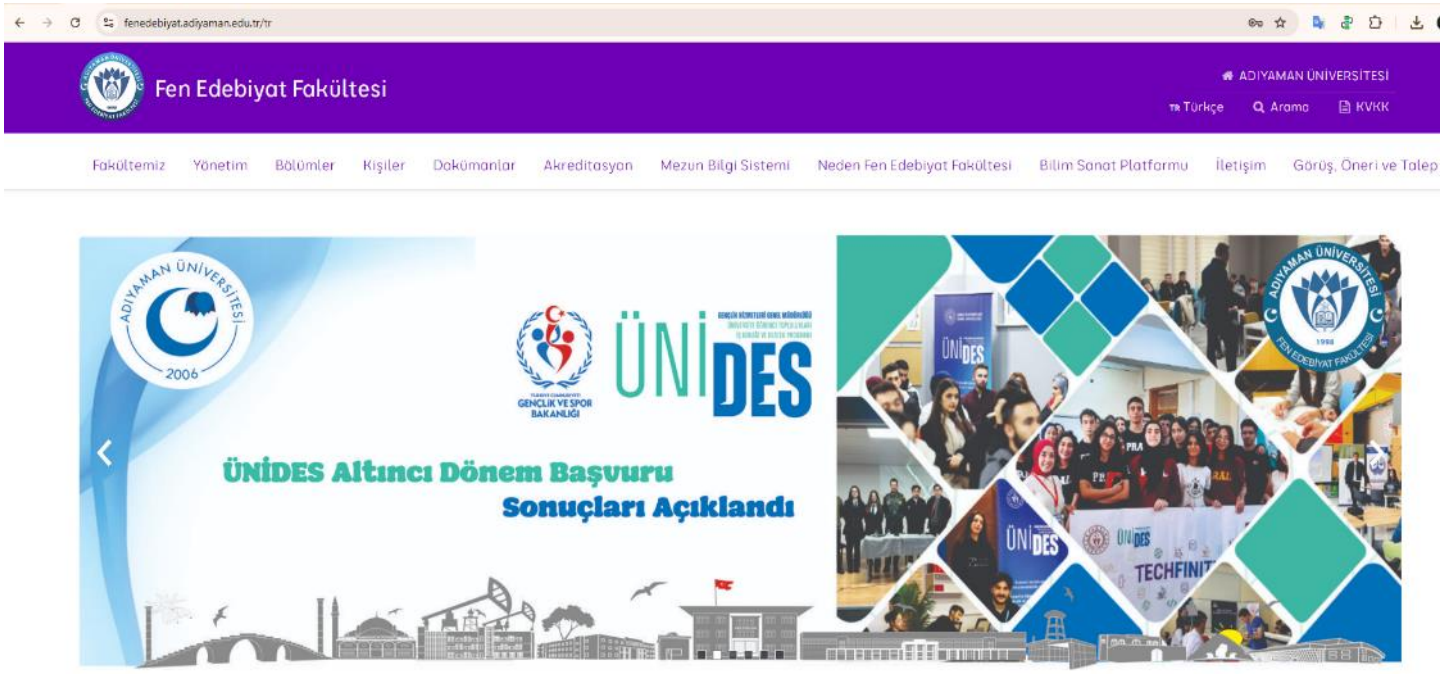

"Siirt Keldani Metropolitiği: Kurumsallaşma, Misyonerlik ve Toplumsal İlişkiler"

isimli kitapları yayımlandı.

Kitabın hazırlanmasında emeği geçen bütün öğretim elemanlarımıza teşekkür eder,
yeni çalışmalarında başarılar dileriz.
